

Fig. 2(e) illustrates a method of amplifying an exogenous gene for insertion in to the vectors of 2(a) and 2(b), and defines the lysozyme signal peptide (SEQ ID NOS:1-2).

Please insert the paper copy of the sequence listing at the end of the application.

REMARKS

Applicants request entry of this amendment under 37 C.F.R. § 1.821-1.825. This amendment is accompanied by a computer disk containing the above named sequences, SEQ ID NOS:1-2, in computer readable form, and a paper copy of the Sequence Listing which has been printed from the floppy disk.

The information contained in the computer readable version of the Sequence Listing was prepared through the use of the software program "PatentIn version 3.1" and is identical to that of the paper copy. As the amendment merely identifies the sequence found in Figure 2(e) of the application as filed, Applicants believe it contains no new matter.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,

William Schmonsees
Reg. No. 31,796.

VERSION WITH MARKINGS TO SHOW CHANGES MADE

The paragraph beginning on page 12, line 23, has been amended as follows:

Fig. 2(e) illustrates a method of amplifying an exogenous gene for insertion in to the vectors of 2(a) and 2(b), and defines the lysozyme signal peptide (SEQ ID NOS:1-2).
